

## **Mental Health and Social Services District Questionnaire Content**

*This is a list of the major topics covered in the district-level mental health and social services questionnaire. For more detailed information on the content of the study questionnaires, you may visit the project web page at [www.rti.org/shpps](http://www.rti.org/shpps).*

- district required mental health or social services offered to students
- parent or guardian consent requirements for providing mental health or social services to students
- the availability of Student Assistance Programs
- the participation of school mental health or social services staff in the development of Individualized Education Plans and Individualized Health Plans
- emergency or disaster plans for responding to students' mental health or social services needs
- back-up coverage requirements when school mental health or social services are unavailable
- staff development provided to mental health or social services staff
- collaboration between district mental health and social services staff and community agencies on school mental health or social services projects
- district contracts or other arrangements with non-school based organizations to provide mental health or social services to students
- credentials that guidance counselors, school psychologists, or school social workers are required to have
